FAQ's

(Frequently Asked Questions)

Q: How can I order refills on my medications?

A: Please expect a courtesy phone call about a week before your next refill from a Benzer Specialty Pharmacy Patient Care Advocate. The Patient Care Advocate will confirm with you that you are still taking the medication and are not having any unbearable side effects. If an "authorization" is required for a prescription from either the doctor or insurance company, our staff will inform you and take the necessary steps to acquire the authorization. You may also order refills yourself by calling 866-634-9965.

Q: How and when do I pay?

A: You will be notified of your cost by our staff once a prescription is processed. At the time, our staff can answer questions related to your prescription cost, such as further explaining your out-of-pocket cost, deductibles, co-payments, co-insurance, limits, etc. You may be eligible to be enrolled into prescription drug assistance programs to assist you with out-of-pocket costs. Ask a Benzer Specialty Pharmacy staff member for more details or to request assistance on navigating these applications.

Q: What if I want more information on my medication?

A: When you receive your prescription we will include a Medication Guide to inform you about the medication you are receiving, however if at any point you have any additional questions, our staff is available to you to answer any questions you may have. If you prefer to read more information, we can also email you or mail evidence-based educational materials to your house. Our knowledgeable pharmacist is always present at the pharmacy between 9am and 7pm on Monday through Friday and from 10am to 3pm on Saturdays. If you have a clinical question after business hours, call us toll free at 1-866-634-9965 to reach a pharmacist 24 hours a day, 7 days a week.

Q: What if the Pharmacy can't fill my medication?

A: In the event we are unable to fill a medication ordered by your physician, Benzer Pharmacy will find out exactly where you are able to fill the prescription and how you will be able to receive it and send the ordered prescription to the appropriate Pharmacy. Once everything is transferred and confirmed our personnel will then reach out to you and provide you with all the details of where your medication will be coming from.

Q: What will happen if my insurance decides to stop covering my medication?

A: There are times when a patient's prescription drug coverage may undergo changes, in which they may rework their preferred drug lists. If this happens, our Pharmacy staff will first reach out to you to make you aware of the change in drug coverage and then contact your physician for an alternate option that will ideally save you the most money and still give you the best care for your condition.

Q: How will I get my medication in the event of an emergency?

A: In case of a natural disaster and you are unable to receive your medication at your home address, we are able to ship the medication to any medication designated by the patient (i.e.: storm shelter, physician's office, friend/family member's home, etc.) If you have not received your medication by the expected delivery date, our Pharmacy will reach out the courier to track the delivery and location status of the package. Benzer Specialty Pharmacy will always make sure that you have a non-stop supply of your medications.

Q: How do I find out the status of my prescription order?

A: As soon as we receive the prescription request from your Physician, it is our policy to immediately reach out to you to inform you that the order is in process. We will update you along the way with the current status of the medication. You will be notified of any co-pays, if we have to submit any additional paperwork the insurance to get the medication approved, or if we have to substitute the medication with a generic equivalent and when your medication will be shipped and delivered to you. You are always welcome to contact the pharmacy at any time to ask the status of your order or for patient consultation of medications and side effects at 866-634-9965. You may also visit our website at www.BenzerSpecialtyPharmacy.com or email us at info@benzerspecialtypharmacy.com.

Q: What steps do I take to find out if I have a new prescription insurance plan?

A: If at any time your prescription drug coverage changes, we will notify you and provide you with the contact information to the insurance plan and walk you through the steps on how to get this information. We are also available to assist you in navigating different insurance plans if you are trying to switch plans yourself.

Q: How do I report a medication error or hazard?

A: The Institute for Safe Medication Practices (ISMP) operates a confidential, national, voluntary medication error reporting program. To report a medication error or vaccine error, visit [ISMP Medication Errors Reporting Program \(MERP\)](http://www.ismp.org). Their website is <https://www.ismp.org>. The information provided is protected, safe and confidential. You may also file a complaint with your insurance company directly by calling the toll free number for Member Services on the back of your insurance card.

Q: Will you let me know if there is ever a safety issue with my medication?

A: Sometimes medications are recalled by the manufacturer if there is a safety concern. If this happens, we will notify you and your doctor and give you the next steps to take, if necessary. This information can also be found online at <http://www.fda.gov/Safety/Recalls/default.htm>. If you ever have any questions regarding any of these procedures, feel free to call and ask our Pharmacist.

Q: What is the best way to dispose of my old medications?

A: Benzer Pharmacy wants to make sure you have the most accurate, up-to-date information when it comes to disposing your old medications so we ask that you call our Pharmacist so we can tell you how the best way to do this, using manufacturer guidelines.

Q: What do I do if I experience side effects?

A: If you experience a serious life-threatening reaction from your medication, go to the nearest Emergency Room immediately or dial 911. If you experience a mild adverse reaction, Benzer Pharmacy encourages you to call us so our Pharmacist can discuss it with you, and then we will notify your doctor for you and determine how he/she would like to handle the side effects.

Q: Will you ever substitute my medication for a different one?

A: Benzer Specialty Pharmacy is located in Florida where the substitution law states that a pharmacy must dispense a less-expensive generic but only if the FDA has determined that the generic is equal in effectiveness. That being said, you or your doctor may request that a branded medication must be used, and our Pharmacy staff will go over any price differences with you over the phone. If you have any questions or concerns on our substitution procedures, feel free to call us at 866-634-9965.

Q: Should I worry about infections?

A: Benzer Pharmacy staff is routinely trained on safely handling pharmaceuticals and how to avoid spreading infection. Staff members wash their hands appropriately and wear gloves and masks when preparing your medication and know not to come into work if they are contagious. All dispensing equipment is cleaned after each use and maintained in tip-top shape.

Patient Management Program (PMP) Overview

Benzer Pharmacy Specialty Pharmacy Patient Management Program proactively works with patients in a number of chronic disease states to provide specialty pharmaceuticals and therapy management support services to obtain optimal therapeutic outcomes thus avoiding adverse drug events and unnecessary costs. Pharmacists' roles are shifting from dispensing medications to direct clinical practice and becoming valued providers of clinical pharmaceutical care and part of the healthcare team for the patients.

When a patient receives their medication this does not guarantee improved health, as a medication's success relies on the patient taking the medication according to the prescribed directions. Non adherence is a multifaceted issue that is linked to both behavioral and system barriers and as a result, many patients do not take their medications as prescribed. It is the goal of Benzer Pharmacy's Patient Management Program to provide the appropriate education, support and communication to improve the patient's self-management/adherence of their medication regime. It is based on five (5) core elements:

- Medication therapy review
- Personal medication record
- Medication-related action plan
- Intervention and/or referral
- Documentation and follow-up

As a Specialty Pharmacy, Benzer Pharmacy offers consistent patient management, specialized clinical staff that provide patient support and focus on patient adherence to therapy. The program promotes enhanced patient understanding, increased adherence to medication regimens and prevention and detection of adverse drug events and patterns of over-use and under-use of prescription drugs. Benzer Pharmacy has developed a proactive refill management and medication adherence monitoring. Reminder calls and mailings are sent to patients prior to refill date. The pharmacist and/or support staff will contact the patient in a timely fashion if inadequate adherence is identified.

Unfortunately, Benzer Pharmacy's Patient Management Program cannot take the medications for the patient, so that means the program is susceptible to limitations. It is a possibility that the patient's actions can adversely impact the potential benefits of the patient management program by not following directions properly or not being compliant to therapy.

This is an opt-in program.
